SKILLS SUMMARY

Programming Languages: Python, C#, TypeScript, JavaScript, Ruby, SQL, HTML, CSS,
Frameworks & Libraries: ASP.NET @ Core MVC, .NET, Ruby on Rails, FastAPI, Flask, Node.js, Angular, React.js, Tailwind CSS, RESTful API Development, SOAP Services, GraphQL
Databases: MSSQL, PostgreSQL, MySQL, Supabase, SQL Queries
Cloud & DevOps Tools: Docker, GitHub, CI/CD Pipelines, Jira, Confluence
Platforms: ServiceNow (Micro-Certification – Welcome to ServiceNow)
Software Engineering Practices: Agile, SDLC, TDD, Unit Testing, Version Control, Code Reviews, Documentation, Debugging
Operating Systems: Windows
Soft Skills: Analytical Thinking, Teamwork, Adaptability, Communication, Attention to Detail, Problem-Solving, Learning Agility

EDUCATION

Associate System Administrator ServiceNow University In progress	2026/03 Remote
Diploma in Information Technology Software Development Nelson Mandela University • Graduated Cum Laude	2021/03 – 2023/12 Gqeberha, South Africa
Higher Certificate in Information Technology Support Services Nelson Mandela University • Graduated Cum Laude	2020/01 – 2020/12 George, South Africa

WORK EXPERIENCE

Java Reactive Intern Zensar • Gained hands-on experience in Java, C#, and .NET development. • Completed the W3Schools Java Professional Certification. • Learned DevOps practices, including version control (Git) and CI/CD fundamentals. • Built foundational knowledge in databases and SQL for application development.	2025/07 Sandton, Johannesburg
Junior Full Stack Developer AgrigateOne • Developed and maintained scalable backend services using Ruby on Rails and Python. • Optimized PostgreSQL queries for secure and efficient data handling. • Integrated AWS services (ECS, RDS, SES, Textract, SNS) to enhance application functionality. • Troubleshoot and debugged full-stack application issues, ensuring system stability and reliability. • Participated in code reviews and pair programming, following Agile and Shape Up methodologies.	2024/02 – 2024/10 Johannesburg, South Africa
Graduate Cloud & DevOps Engineer Disraptor • Completed training and achieved qualifications in AWS cloud technologies. • Participated in simulated cloud migration and workload architecture reviews as part of coursework.	2022/11 – 2023/03 Johannesburg, South Africa

PROJECTS

Personal Portfolio Website [🔗](#)

2025/11 – 2026/01

Portfolio Project

- Designed and developed a personal portfolio website from scratch to showcase skills, projects, certifications and professional experience to recruiters and potential employers.
- Built with React 18 and TypeScript for a type-safe, component-driven UI with smooth animations, glass morphism effects and responsive layouts across all devices.
- Configured Vite for fast builds and deployed via GitHub Pages directly from the docs folder without GitHub Actions.
- Included CV download functionality, social links and a clean project and education showcase reflecting real growth and achievements.

Thwala Attorneys Web Application [🔗](#)

2025/03 – 2025/06

Portfolio Project

Tech: ASP.NET Core 8, C#, Entity Framework Core, SQL Server 2022, Docker, Docker Compose, SMTP Email

- Developed a full-stack legal case and client management system with MVC architecture and Entity Framework Core for reliable data persistence.
- Automated database migrations, SMTP client notifications, and application logging to ensure operational efficiency.
- Fully containerized with Docker and Docker Compose, improving deployment speed and scalability.
- Enabled secure case management workflows, client notifications, and role-based access for law firm staff.

Task Management Application

2024/12

Portfolio Project

Tech: Angular 17+, TypeScript, SCSS, FastAPI (Python), SQLAlchemy, SQLite, JWT, SMTP

- Built a full-stack productivity platform with JWT authentication, user profile management, and email notifications.
- Implemented task CRUD operations, prioritization, tagging, status tracking, time tracking, and drag-and-drop functionality.
- Designed a personal productivity dashboard with analytics, overdue task alerts, and real-time updates.
- Delivered a responsive, mobile-friendly UI/UX with dark/light mode and seamless user interactions.

CERTIFICATES AND BADGES

- | | |
|--|---|
| • Databricks Certified Data Engineer Professional 🔗 | • Databricks Certified Data Analyst Associate 🔗 |
| • Cisco CCNA v7: Introduction to Networks 🔗 | • Cisco Introduction to Cybersecurity 🔗 |
| • W3Schools Certified Java Developer 🔗 | • Micro-Certification - Welcome to ServiceNow |
| • Generative AI Application Deployment and Monitoring. 🔗 | • 120-Hour TEFL Certificate 🔗 |
